

VERIFICATION OF PRELIMINARY REGISTRATION BY THE NATIONAL CHAIR

Athletes who have completed their Preliminary Registration are permitted to change the qualifying meet and entry total but only if that change is made prior to the National Chair verifying and submitting that total to the IWF Masters Secretariat. After the athlete's entry has been verified and submitted to the IWF Masters Secretariat, the athlete can no longer make any changes to their entry total.

In order to provide our members an effective way of determining which totals from various CMWFHC qualified competitions to use (already posted, such as Provincial Masters Meets, last year's PanAm or Canadian Masters, last year's World Masters), the National Chair will be Verifying and Submitting athletes' preliminary data every Monday in April (1,8,15,22,29) starting at 12:01 am. This way, the athlete can select the best time to enter the Preliminary Registration System.

For example, if you complete your Preliminary Registration on Friday April 5th, and the National Chair Verifies and Submits that entry on Monday April 8th, you are committed to that entry total.

Please direct any questions or concerns to the National Chair.
